

Shalom.

(June 15th 2025)

October 7, 2023, peaceful Israeli communities were invaded by Hamas; radical Islamic terror groups and Gazan civilians. Over 1,200 innocent people were brutally murdered; babies, children, youth and the elderly. 251 innocent people, including the bodies of some the Satanists had murdered, were taken as hostages and human shields.

Over 50 hostages remain in captivity and it is believed that over 30 of these people have now passed and over 20 remain alive. Today marks **618** days that these precious souls have endured captivity in the dungeons of Gaza where they are chained, starved, humiliated and tortured by radical Islamic monsters.

What is the response from New Zealand's leaders to the October 7 massacre?

Our political, religious and community leaders are morally corrupt and continue to disregard the intended and actual victims of the October 7 massacre, i.e. Israel, and they treat Israel as the perpetrator.

What it must take for such corruption of mind, soul and spirit to invert the truth so blatantly!

Just when we thought that the depths of political stupidity had been dug to its limits under our previous government, to our embarrassment, Luxon and Peters plummet even deeper into the abys of ignorance, arrogance and anti-Semitism. Our government has again opened its smutty paws and sniveling mouths and sanctioned two Israeli ministers, Smotrich and Ben-Gvir. Why? Simply because these two ministers enthusiastically shared their views publicly.

In support of the sanctions, Peters commented that, *"Ministers Smotrich and Ben-Gvir have severely and deliberately undermined (the 2 state solution) by personally advocating for the annexation of Palestinian land and the expansion of illegal settlements, while inciting violence and forced displacement."*

An observation: A lesson in both history and geography may be embarrassingly enlightening for Peters.

Not to be outdone at the front of stage, Luxon, hands in pockets as usual, feverishly still searching for that which doesn't exist, reasoned that, *"These two ministers...err.. it was extremist rhetoric and language that was inciting violence..."*

Luxon and Peters have obviously never sat in a café in Israel and enjoyed a wholly enthusiastic and energetic debate - on any subject and on various levels.

Chris and Winnie, Israel is a democracy - you know, that system of government that not only allows but encourages views to be openly debated.

Iran, as any thinking person knows, is the bank, the military arms supplier, the master of global terrorism and the greatest threat to peace. The Iranian regime has spread its fingers across the globe, clutching in its talons, bombs and weaponry in search of innocent civilians. It does not fight battles for any other reason than to, firstly destroy Israel and the Jews, and then, as dictated by these radical Islamists, the infidels - as they term all non-Muslims. Iran has facilitated in every which way, and continues to, the monsters of Gaza.

And along came 'Operation Rising Lion'...

In a move to ensure the safety of its people from an Iranian initiated nuclear war, Israel struck Iranian military sites, leaders and nuclear scientists. A move, I might add, that I have been awaiting and anticipating for some time.

Whilst there is a time to cut some of the circulation of a diseased monster, there is a time to cut off its head - just saying...

Because I simply cannot resist it, I share Luxon's response to Israel's military action, *"What we want to see is the parties coming together and having a conversation..."*

Well, that will work - not! - and hasn't worked for at least the past 2 generations. Where has this man been?

Further, Luxon responded, *"...we call for the de-escalation - the last thing this region needs is more instability. This is potentially catastrophic for the Middle East and we don't want to see that happen."*

Seriously? Words fail me - and that's not easy.

Shame on New Zealand's coalition of corruption! But eventually, like all morally bankrupt governments, they shall be held accountable by the people and they shall fall.

The New Zealand government continues, with any excuse and without any reason to sanction Israel, and by doing so, condones and endorses the actions of all radical Islamic terror groups.

They stain New Zealand's reputation with their lies and cowardice. They drag our New Zealand flag through the blood-soaked mud of human suffering - and then tie it to the mast of radical Islamic Satanists.

Never again must our political, religious and community leaders be allowed to breathe their Jew-hatred though our nation, unhindered and unchallenged.

Whilst these leaders clutch their pearls at any breeze of dissenting opinion, their radical Islamic mates continue to enslave precious souls in the dungeons of Gaza, and Israel battles for their very existence and the survival of Western democracies.

Those of us who value the sanctity of life, truth and justice, stand as a united voice to bring awareness of the 'Black Saturday Massacre' and call for the release of the hostages. These innocent people enslaved in terror tunnels endure in silence, so we must speak out for them.

Jews and non-Jews, religious and secular, we must declare our solidarity with the people of the PROMISED, SOVEREIGN and ETERNAL nation of Israel.

AM YISRAEL CHAI!
